Fire Protection System!

Please read and discuss with your family and any guest who may use your home.

Smoke Detectors/Alarms: The smoke detector/alarm in each room of your home will only sound if you have smoke in your home from a smoldering fire, fireplace smoke, cooking smoke or steam from the bathrooms. The alarm only sounds in your home and does not sound in the building and will not bring the Fire Department. **DO NOT OPEN** the door to the hall way. The smoke alarms in the hall ways will set off the building alarm and the Fire Department will respond. You may be fined \$350 if you cause a false alarm. **DO OPEN** the windows and fan the smoke to the outside.

Heat Detectors and Sprinklers: The heat detector/alarm in each room of your home will sound off if you have a fire in that room/s. The building alarm will sound and the Fire Department will respond. **Evacuate the building immediately!!!** The heat of the fire will melt the plastic cover over the sprinkler head/s and will set of the sprinklers in that room/s. The flow of the water out of the sprinkler will alert the Fire Department that there is a hot fire in that room/s. Only a hot fire will set off the sprinklers system allowing water to flow into that room/s.
